

Dexamethasone Suppression Test

INSTRUCTIONS

You will be required to take some Dexamethasone tablets prior to this test. This medication can be obtained from one of our Collection Centres prior to the test or from your medical practitioner.

- Take two (2) tablets with water between 11.00pm and 12.00 midnight the night prior to your test.
- A blood specimen will need to be collected the following morning between 8:00am and 10:00am so please ensure your booking is during this timeframe.

INFORMATION

For any further information or questions please don't hesitate to contact our Client Services team on **(08) 8366 2000**
